

FOR ALL YOUR FLAT-GLASS NEEDS!

UCA Neu-Tone Series is a great low reflectivity solution for homes and businesses alike. Cool, neutral tones. Made using sputtered technology for long lasting stability! 20%-35% VLT's

UCA Reflect Series comes in 2 colors and 4 VLT's and provides the best heat rejection for the money! Available in Reflective Silver and Bronze 20%-35% VLT's

UCA Scenic Series is a Dual-Reflective Film designed to provide many solutions for home owners and businesses. With warm tones, it rejects heat, stops glare and is safe on most glass. Available in 5%, 15%, 25%, and 35% VLT's

UCA Tru-Blu Series is a Dual Reflective Film that's perfect for stopping glare. With cool, blue tones, it cuts out large amounts of IR and UV as well as Near-UV that strains eyes. Available in 10%, 25%, and 35% VLT's

UCA Inviso70 Series is the perfect film when high visibility is needed. They'll never know it's on the window! Invisible when installed and with 74% heat rejection. Great for shop windows or customers that don't want "tinted" windows.
